Visioneering 2005: Entertainment of Tomorrow

Saturday, February 19, 2005

<http://www.theinstitute.smu.edu/visioneering.html>

Engineering in a rock concert atmosphere! Visioneering brings together students, working engineers, innovators, and noted national figures to celebrate the ways engineering makes a difference in the world around us. Now in its 5th year, Visioneering has grown from a local live event reaching 250 Dallas-Fort Worth area middle school students to a national event and TV show that reaches over 8 million students!

New for 2005...Thanks to Nortel Networks, Visioneering will include a live webcast reaching up to 100 streams plus an archived webcast available after the event. Join us as we excite tomorrow's engineers about math, science, engineering and technology!

Here's how it works... Bring area students, teachers, and parents to your site for a day of engineering activities. We provide the Opening Rally and Closing Celebration for your National E-Week kick-off event. Start the day with us as you gather in your venue and participate in the Opening Rally webcast –hear from high-energy speakers and participate in a Q&A with the speakers. Then, breakout and participate in activities of your choice led by your people. Finally, cap off the day as you join us again for a concert featuring a current artist popular with students.

Sample Schedule of Events (CST)

9:30 a.m.	Opening Rally Speakers with Q&A	Webcast
10:30 a.m.	Activities of your choice Conceptual design (in the fashion of Visioneering) Tours of your facilities Hands-on activities	At your site At your pace Led by your people
Noon	Sack lunch at your site	
2:30 p.m.	Closing Celebration Celebrity Concert	Webcast
3:30 p.m.	Adjourn	

For additional information on Visioneering, visit our website at <http://www.theinstitute.smu.edu/visioneering.html>.
