Featured Local Activity

For the fifth consecutive year, ThinkPlace™ presented by IBM® will host Engineers Week 2005 activities at INNOVENTIONS at Epcot®. INNOVENTIONS is a unique attraction filled with hands-on, interactive exhibits, where guests discover how the latest in science and technology can simplify and enhance their lives. Anchoring EWeek festivities will be the tremendously successful Guest Speaker Series that highlights how math, science, common sense and experience can make an ordinary problem solver an extraordinary engineer. This year's program will feature engineers from The Boeing Company, International Business Machines Corporation, Lutron Electronics Co., Inc., The Society of the Plastics Industry, Inc., Underwriters Laboratories, Inc., and Walt Disney World® Parks and Resorts.

EWeek activities within ThinkPlace will include mind challenges and experiments, which emphasize the importance of math and science and motivate kids of all ages to want to learn more. If you are in the Orlando area, we encourage you to stop by and experience Engineers Week 2005 at INNOVENTIONS at Epcot® at the Walt Disney World® Resort. For more information, please feel free to contact us at thinkpl@us.ibm.com.
