

**Doris Yang, Senior Manager of SQA Engineering
Symantec China Development Center**

Doris Yang is currently Senior Manager, SQA engineering of Symantec China Development Center for cLab (Compatibility Lab). The Compatibility Lab is the hardware certification lab in Symantec's Storage and Management Group. The charter of the Compatibility Lab is certify third-party storage hardware, drive product quality improvement, and assure a high level of customer satisfaction. During Mr. Yang's three-year tenure on the position, she has developed the team from several engineers to now more than 25 engineers; and the team is playing an increasingly important role in Symantec's global compatibility engineering community.

Prior to joining Symantec, Ms. Yang was the SQA engineering manager at Exavio, responsible for the company's cross-product, cross-platform integration testing and customized solutions. Prior to joining Exavio, Ms. Yang worked at the Clearing Center of the People's Bank of China for 9 years. As a software manager and architect, she participated in the in the evaluation and implementation of the Bank's Payment System, and played a key role in the design of Account Management System.

Ms. Yang graduated from Beijing Institute of Technology with a master degree in computer science.
