

Global Marathon: UK

March 11

**Global Challenge: Working as a Water Engineer**

**Joanna Outterside** is a Process Engineer, graduated from the University of Oxford with a MEng in Engineering Science. She has worked for the UK based Utility company United Utilities for five years, designing drinking water and wastewater treatment processes. Her other interests include renewable energy, carbon accounting and encouraging young people to consider careers in Engineering. She is also a volunteer speaker for the charity WaterAid.
