

Every girl can be a SciGirl!

SciGirls invites girls everywhere to join the SciGirls revolution! You can encourage the girls in your program to become SciGirls in ten easy steps! Here's how:

1. Log on to pbskids.org/scigirls.
2. Register.
3. Design your profile page—don't forget your avatar!
4. Log out and wait 24 hours for approval of your user name. (PBS staff moderates all names for child safety.)
5. Log back into SciGirls.
6. Go to Projects.
7. Click Submit a project.
8. Tells us what you're doing. (If submitting for your program, remember to speak in friendly terms for girls ages 8-12.)
9. Upload images and send us your release form.
10. Recruit a friend. Tell her to "Be a SciGirl!"

SciGirls is produced for PBS by **tpt** National Productions and is made possible by the National Science Foundation. Additional support by ExxonMobil.
